In the beginning ...

I didn't know I'd be starting a company. All I wanted was to make dinner. My kids had dietary restrictions, so opening a box of store bought macaroni and cheese was not an option. I needed to create meals that were nutritious, delicious, unprocessed, and easy to prepare. Mostly, I wanted to make dinners my family would love.

Magnificent, healthful meals in minutes. Is that too much to ask? Back then, it was. So my parents (Frank and Judy) pitched in and we all started experimenting with herbs and spices. We put some interesting combinations together for pizza, pasta, roast chicken, barbecue ... storing them in recipe-sized bags made prep time incredibly fast. My neighbors wanted some. My friends wanted some. We started bringing our culinary blends to local fairs. And then somebody said, "How about selling them at home parties?"

That's exactly what we did. And if you picked this catalog up at a party, you know why.

Take good care of yourself!

Grapeseed ()il

Grapeseed oil is great for dressings and dipping, but it is absolutely unbeatable for sautéing or frying because it can be heated to a higher temperature than other oils without burning. The higher the heat, the faster the cooking time — so meats stay juicier and vegetables retain more nutritional value.

And the oil itself has some terrific health benefits. Grapeseed Oil is low in saturated fat, even lower than olive oil. It's high in antioxidants, like Vitamin E. It has no cholesterol. There are even studies showing that it helps raise HDL (good cholesterol) and lower LDL (bad cholesterol) and may have other health benefits, like lowering blood pressure.

You may already know that olive oil is more heart-healthy than other oils. Grapeseed Oil is even better.

Because of its myriad of uses, we've infused our oils with some very interesting combinations of flavors. Discovering your favorites should be a wonderful experience.

Grape seeds are so small, it's hard to believe anyone would go to the bother of pressing them. Actually, European winemakers have been doing just that for centuries – and grapeseed oil has long been prized for its light distinctive taste and

> versatility. Here in America, gourmet cooks are just beginning to recognize its unique advantages. Unlike the others,

Wildtree Grapeseed Oil is expeller pressed,

which means no solvents or gases were used during the extraction process. Better for cooking, better for you.

When I started my Wildtree business four years ago, I never dreamed it would bless our family in so many ways. Initially I wanted nothing more than to work from home, allowing me to be the wife and mother I want to be.

Within a few short years, I had it all ... a fun job that I LOVE, an income that would rival most corporate CEOs, international incentive trips, and the most precious gift of all, time with my family.

There is no other business where I can put the needs of my family first, yet make the income I choose. My children are now 7, 9, and 11 years old, and the years are flying by! Wildtree has given me such a gift – the ability to witness every milestone, be involved in their school, and be available when they need me. My husband and I have complete peace of mind knowing our retirement is secure, college money is saved, and we still have the financial resources to show our children the world and give them opportunities.

I have the best of both worlds: pride in a business that I have built from the ground up, and the time to enjoy all its benefits. Join our Wildtree team so you, too, can have it all!

Wildtree helped me achieve both of those goals and so much more.

In addition to the rewards of growing my own business I have the incredible satisfaction of teaching others to develop their own, as well. I love empowering others to be in charge of their own paycheck! And we can do this while helping people eat healthy great-tasting meals.

If you are looking to change your financial situation or improve your family's health, consider becoming a partner with Wildtree. We can all make a brighter future, together.

I started my Wildtree venture simply hoping for some "part-time cash on the side." I never in a million years imagined I'd be running a full-fledged business. I was working part-time 4 nights a week when I joined, and hoped to supplement that income with Wildtree. Honestly, I just wanted to earn enough to pay a cleaning lady twice a month!

I am a busy mom of 2 boys. My husband works a full-time job with travel. Our older son is involved in numerous activities, and our younger son has some disabilities which means I am with him in therapy 4 days a week. Wildtree has truly been the answer to my need for an "ultra-flexible" schedule with lucrative pay. I work from home, on the schedule I choose, allowing me to be available to my family when I need to be. I currently earn an income that is more than many full-time positions in the corporate world. I've also earned numerous incentive trips, as well as loads of recognition among my peers. There is no other job that allows me all of these perks – full-time income, dream destination travel, recognition as a career woman, and above all, FLEXIBILITY!!

Right now as you read this, you may be saying to yourself ... "Sure, of course she's going to write the dream story for the catalog" ... I know, I hear you! I thought that myself when I read someone else's story 3 years ago. But let me assure you, I am the real deal and this is my real story. I am building an incredible business, and I am proud to be a part of this amazing company. The fact that I am paid to simply teach people how to eat healthy on a budget, saving time and money in the kitchen, still excites me to this day!

So ... what are you waiting for? Why not give it a try? You've got nothing to lose! After all, it's groceries!

Almost three years ago, I met a woman who told me that my taco seasoning had pesticide in it. Of course I did not believe her, so I did some research. Shockingly, I found out that pesticide was only one of the many additives in my pantry. I gave Wildtree products a try and loved them so much that I gave the business a try.

Being a full-time teacher and having four teenagers kept me busy enough, but Wildtree fit so perfectly into our lives. Mealtime went from stressful to simple; my family was eating healthier; and my children were learning how to make better eating choices.

With no business background at all, I built an organization from the ground level up. What started out as extra cash turned into tuition payments and living expenses at two private universities for my children. What a gift to be able to watch them graduate and know that they are starting their lives with NO debt from loans, thanks to my Wildtree business!

I have met some life-long friends, helped people make healthier choices, brought families together again at the dinner table, empowered other people to build their own businesses, and taken amazing trips – all thanks to Wildtree! Wildtree has been a blessing for my family ... it is a blessing for ALL families!

Wildtree IS the perfect fit for me. I am the "gatekeeper" to my family's health because I do the shopping and cooking. Every time I go to the grocery store I feel like I am a "food scientist" when reading product labels. There are so many ingredients that I do not recognize because they are chemicals, not "food." With Wildtree, shopping is easier because they only use natural and organic ingredients.

I joined Wildtree for many reasons: Ground floor opportunity, healthy and delicious food, the flexibility in choosing the hours I work and the security in knowing I am in control of my own income. I am in business for myself, but not by myself. The support and training the company offers is the best in the industry. My business is a true testimony of how an at-home business can be both financially rewarding and meaningful.

Joining the Wildtree family was one of the best decisions I have ever made! Our organization is growing like crazy and I have earned the next all-expense paid Incentive Trip to Playa Del Carmen, Mexico! You, too, can make the money you deserve, have a flexible schedule and share our amazing products with the people in your life. Give Wildtree a try; chances are it will be a perfect fit for you too.
